15.2 Reporting

15.2.1 Monthly budget statements

- a) The Accounting Officer with the assistance of the Chief Financial Officer must, not later than ten working days after the end of each calendar month, submit to the Mayor and Provincial and National Treasury a report in the prescribed format on the state of the Municipality's budget for such calendar month, as well as on the state of the budget cumulatively for the financial year to date.

- b) The Accounting Officer is to further table a report on the state of the Municipality's budget for a particular month, and cumulatively for the financial year to date at the next Council meeting subsequent to the end of that particular month.

15.2.2 This report must reflect the following:

- i) Actual revenues per source, compared with budgeted revenues;
- ii) Actual expenses per vote, compared with budgeted expenses;
- iii) Actual capital expenditure per vote, compared with budget expenses;
- iv) Actual borrowings, compared with the borrowings envisaged to fund the capital budget;
- v) The amount of allocations received, compared with the budgeted amount;
- vi) Actual expenses against allocations, but excluding expenses in respect of the equitable share;
- vii) Explanations of any material variances between the actual revenues and expenses as indicated above and the projected revenues by source and expenses by vote as set out in the service delivery and budget implementation plan;
- viii) The remedial or corrective steps to be taken to ensure that the relevant projections remain within the approved or revised budget; and
- ix) Projections of the revenues and expenses for the remainder of the financial year, together with an indication of how and where the original projections have been revised.
- x) The report to the National Treasury must be both in electronic format and in a signed written document.

15.2.3 Quarterly Reports

- a) The Mayor must submit to Council within thirty days of the end of each quarter a report on the implementation of the budget and the financial state of affairs of the Municipality.

15.2.4 Mid-year budget and performance assessment

- a) The Accounting Officer must assess the budgetary performance of the Municipality for the first half of the financial year, taking into account all the monthly budget reports for the first six months, the service delivery performance of the Municipality as against the service delivery targets and performance indicators which were set in the service delivery and budget implementation plan.
- b) To comply with Section 72 of the MFMA the Accounting Officer must then submit a report on such assessment to the Mayor by 25 January each year and to Council, Provincial Treasury and National Treasury by 31 January each year.
- c) The Accounting Officer may in such report make recommendations after considering the recommendation of the Chief Financial Officer for adjusting the annual budget and for revising the projections of revenues and expenses set out in the service delivery and budget implementation plan.

16. COMPLIANCE AND ENFORCEMENT

- a. Violation of or non-compliance with this Policy may give a just cause of disciplinary steps to be taken.
- b. It will be the responsibility of Accounting Officer to enforce compliance with this policy.

17. EFFECTIVE DATE

The policy shall come to effect upon approval by Council.

18. POLICY ADOPTION

This Policy has been considered and approved by **COUNCIL OF AMAJUBA DISTRICT MUNICIPALITY** as follows:

Resolution No:.....

Approval Date:.....

ANNEXURE: LEGAL REQUIREMENTS

Municipal Finance Management Act

Section 15 Appropriation of funds for expenditure

Expenses may only be incurred in terms of the approved annual budget (or adjustments budget) and within the limits of the amounts appropriated for each budget vote.

Section 16 Annual budgets

The council of the municipality must approve the annual budget before the start of the financial year to which it relates.

The mayor must table the annual budget at least ninety days before the start of such financial year.

The capital budget may extend over three years, provided that it is separated into annual appropriations for that period.

Section 17 Contents of annual budgets and supporting documents

The budget must be in the prescribed format, and must be divided into a capital and an operating budget.

The budget must reflect the realistically expected revenues by major source for the budget year concerned.

The expenses reflected in the budget must be divided into votes.

The budget must also contain the foregoing information for the two financial years following the financial year to which the budget relates, as well as the actual revenues and expenses for the year before the current year, and the estimated revenues and expenses for the current year.

The budget must be accompanied by all the following documents:

- draft resolutions approving the budget and levying property rates, other taxes and tariffs for the financial year concerned;
- draft resolutions (where applicable) amending the IDP and the budget-related policies;
- measurable performance objectives for each budget vote, taking into account the municipality's IDP;
- the projected cash flows for the financial year by revenue sources and expenditure votes;
- any proposed amendments to the IDP;
- any proposed amendments to the budget-related policies;

- the cost to the municipality of the salaries, allowances and other benefits of its political office bearers and other councillors, the municipal manager, the chief financial officer, and other senior managers;
- particulars of any proposed allocations or grants to other municipalities, municipal entities, external mechanisms assisting the municipality in service delivery, other organs of state, and organisations such as NGOs, welfare institutions and so on;
- particulars of the municipality's investments; and
- various information in regard to municipal entities under the shared or sole control of the municipality.

Section 18 Funding of expenditures

The budget may be financed only from:

- realistically expected revenues, based on current and previous collection levels;
- cash-backed funds available from previous surpluses where such funds are not required for other purposes; and
- borrowed funds in respect of the capital budget only.

Section 19 Capital projects

The municipality may spend money on a capital project only if the money for the project (including the cost of any required feasibility studies) has been appropriated in the capital budget.

The total cost of the project must also be approved by the council.

The envisaged sources of funding for the capital budget must be properly considered and the council must be satisfied that this funding is available and has not been committed for other purposes.

Before approving a capital project, the council must consider the projected cost of the project over all the ensuing financial years until the project becomes operational, as well as the future operational costs and any revenues which may arise in respect of such project, including the likely future impact on property rates and service tariffs.

Section 20 Matters to be prescribed

The minister of finance must prescribe the form of the annual budget, and may further prescribe a variety of other matters, including the inflation projections which the municipality must use in compiling its budget.

The minister may also prescribe uniform norms and standards in regard to the setting of tariffs where a municipality entity or other external mechanisms is used to perform a municipal service; and may also take appropriate steps to ensure that a municipality does not, in exceeding its fiscal powers, materially and unreasonably prejudice national economic policies (particularly on inflation, administered pricing and equity), economic activities across municipal boundaries, and the national mobility of goods, services, capital or labour.

Section 21 Budget preparation process

The mayor of the municipality must:

- Co-ordinate the processes for preparing the annual budget, and for reviewing the municipality's IDP and budget-related policies to ensure that the budget, the IDP, and the policies are mutually consistent and credible.
- At least ten months before the start of the ensuing financial year, table in the council the time schedule with key deadlines for the preparation, tabling and approval of the following year's annual budget, the review of the IDP and budget-related policies, and the consultative processes required in the approval of the budget.
- When preparing the annual budget, take into account the municipality's IDP, the national budget, provincial budget, the national government's fiscal and macro-economic policies, and the annual Division of Revenue Act.
- Take all reasonable steps to ensure that the municipality revises its IDP in line with realistic revenue and expenditure projections for future years
- Consult the district municipality (if it is a local municipality) and all other local municipalities in the district, and all other local municipalities in the district if it is a district municipality.
- Consult the national treasury when requested, the provincial treasury, and such other provincial and national organs of state as may be prescribed.

- Provide, on request, any budget-related information to the national treasury, other national and provincial organs of state, and any other municipality affected by the budget.

Section 22 Publication of annual budgets

Immediately after the annual budget has been tabled, the municipal manager must make this budget and other budget-related documentation public and must invite the local community to submit representations in regard to such budget.

The municipal manager must also immediately submit the tabled budget in both printed and electronic formats to the national treasury, the provincial treasury, and in either format to prescribed national and provincial organs of state and other municipalities affected by the budget.

Section 23 Consultations on tabled budgets

After the budget has been tabled, the council of the municipality must consider the views of the local community, the national treasury, the provincial treasury, and any provincial or national organs of state or municipalities which have made submissions on the budget.

After considering these views, the council must give the mayor the opportunity to respond to the submissions received, and – if necessary – revise the budget and table the relevant amendments for consideration by the council.

The national treasury may issue guidelines on the manner in which the council must process the annual budget, including guidelines on the formation of a committee of the council to consider the budget and hold public hearings. Such guidelines shall be binding only if they are adopted by the council.

Section 24 Approval of annual budgets

The council must consider approval of the budget at least thirty days before the start of the financial year to which such budget relates.

The budget must be approved before the start of such financial year, and the resolutions and performance objectives referred to in Section 17 must simultaneously be adopted.

Section 25 Failure to approve budget before start of budget year

This section sets out the process which must be followed if the budget is not approved in the normal course of events. Briefly the council must reconsider and vote on the budget, or an amended version of the budget, every seven days until a budget is approved. The mayor must immediately inform the MEC for Local Government if the budget is not adopted by the start of the budget year, and may request a provincial intervention.

Section 26 Consequences of failure to approve budget before start of budget year

The provincial executive must intervene in any municipality which has not approved its annual budget by the start of the relevant financial year. Such intervention must entail the taking of any appropriate steps to ensure a budget is approved, including dissolving the Council and appointing an administrator until a new council can be elected, and approving a temporary budget until such new council can adopt a permanent budget for the municipality. The section also imposes restrictions on what may be spent in terms of such temporary budget.

Section 27 Non-compliance with provisions of this chapter

This section sets out the duties of the mayor to report any impending non-compliance and the general consequences of non-compliance with the requirements of the various foregoing prescriptions.

Section 28 Municipal adjustments budgets

The municipality may revise its annual budget by means of an adjustments budget.

However, the municipality must promptly adjust its budgeted revenues and expenses if a material under-collection of revenues arises or is apparent.

The municipality may appropriate additional revenues which have become available but only to revise or accelerate spending programmes already budgeted for.

The municipality may in such adjustments budget, and within the prescribed framework, authorise unforeseen and unavoidable expenses on the recommendation of the mayor.

The municipality may authorize the utilization of projected savings on any vote towards spending under another vote.

Municipalities may also authorise the spending of funds unspent at the end of the previous financial year, where such under-spending could not reasonably have been foreseen at the time the annual budget was approved by the council.

Only the mayor of the municipality may table an adjustments budget. Such budget may be tabled whenever necessary, but limitations on the timing and frequency of such tabling may be prescribed.

An adjustments budget must contain all of the following:

- an explanation of how the adjustments affect the approved annual budget;
- appropriate motivations for material adjustments; and
- an explanation of the impact of any increased spending on the current and future annual budgets.

Municipal taxes and tariffs may not be increased during a financial year except if required in terms of a financial recovery plan.

Section 29 Unforeseen and unavoidable expenditure

In regard to unforeseen and unavoidable expenses, the following apply:

- the mayor may authorise such expenses in an emergency or other exceptional circumstance;
- the municipality may not exceed a prescribed percentage of the approved annual budget in respect of such unforeseen and unavoidable expenses;
- these expenses must be reported by the Mayor to the next council meeting;
- the expenses must be appropriated in an adjustments budget; and
- the adjustments budget must be passed within sixty days after the expenses were incurred.

Section 30 Unspent funds

The appropriation of funds in an annual or adjustments budget will lapse to the extent that they are unspent by the end of the relevant budget year, but except for the expenses referred to above in Section 16.

Section 31 Shifting of funds between multi-year appropriations

If the funds for a capital project have been appropriated for more than one financial year (see Section 16) these expenses may exceed the appropriation for any one financial year, provided:

- the increase is not more than 20% of that financial year's allocation;
- the increase is funded in the next financial year's appropriations;
- the Municipal Manager certifies that actual revenues are expected to exceed budgeted revenues, and that enough funds will be available to finance such increased appropriation without incurring further borrowing beyond the annual budget limit;
- the Mayor gives prior written approval for such increased appropriation; and
- all the above documentation is provided to the Auditor-General.

Section 32 Unauthorised, irregular or fruitless and wasteful expenditure

Unauthorised expenses may be authorised in an adjustments budget.

Section 33 Contracts having future budgetary implications

Contracts extending beyond one financial year may be entered into by a municipality, but if such contract extends beyond the three years covered in the annual budget, the Municipality may enter into such contract only if:

- The municipal manager, at least sixty days before the council meeting at which the contract is to be approved, has made the contract public, with an information statement summarising the municipality's obligations, and inviting the local community and other interested parties to submit comments or make representations.
- The municipal manager solicits the views and recommendations of the national treasury and provincial treasury in respect to such contract, as well as those of the national department of provincial and local government, and any national department concerned with water, sanitation or electricity, if the contract relates to any of these services.
- The council has taken into account the projected financial obligations in regard to such contract, the impact on tariffs, and the views and comments received from all the foregoing parties.

- The council adopts a resolution determining that the municipality will secure a significant capital investment or derive a significant financial or economic benefit from the contract and approves the entire contract exactly as it is to be executed.

A contract for purposes of this section shall exclude any contract relating to the incurring of long-term debt by the municipality, employment contracts, contracts for categories of goods as may be prescribed, or contracts where the value of the contract is less than a prescribed value or a prescribed percentage of the annual budget.

Section 42 Price increases of bulk resources for provision of municipal services

National and provincial organs of state which supply water, electricity or any other bulk resources to municipalities or municipal entities for the provision of municipal services may increase the price of such resources only after doing all the following:

- The proposed increase must be submitted to the organ's executive authority and (where legislation so requires) to any regulatory agency for approval.
- At least forty days prior to the above submission the National Treasury and organised local government must be invited to submit written comments on the proposed increase.
- The executive authority, after taking into account the comments received, must table the price increase in Parliament or the provincial legislature, as the case may be, with a full motivation and certain other prescribed explanatory documentation.

Unless the Minister of Finance otherwise directs, a price increase must be tabled on or before 15 March to take effect from 1 July of the same year. If it is tabled after 15 March it may only take effect from 1 July of the following year.

Section 43 Applicability of tax and tariff capping on municipalities

If a national or provincial organ of state is legislatively empowered to determine the upper limits of any municipal tax or tariff, such determination takes effect on the date specified in the determination, but provided that, unless the Minister of Finance

otherwise directs:

- A determination promulgated on or before 15 March shall not take effect before 1 July of the same year.
- A determination promulgated after 15 March shall not take effect before 1 July of the following year.
- A determination shall not be allowed to impair a municipality's ability to meet any annual or periodic escalations in the payments it must make in respect of any contract legally entered into by a municipality.

Section 53 Budget processes and related matters

The mayor of the municipality must:

- Provide general political guidance over the annual budget process and the priorities that guide the preparation of each budget.
- Co-ordinate the annual revision of the IDP, as well as the preparation of the annual budget, and determine how the IDP is to be taken into account or is to be revised for purposes of such budget.
- Take all reasonable steps to ensure that the council approves the annual budget before the start of the financial year to which it relates, and that the municipality's service delivery and budget implementation plan is approved within twenty-eight days after the approval of the budget.
- Ensure that the annual performance agreements for the municipal manager and the senior managers of the municipality are linked to measurable performance objectives which are approved with the budget and the service delivery and budget implementation plan.

The mayor must promptly report to the council and the MEC for Local Government any delay in tabling the annual budget, approving the service delivery and budget implementation plan or signing the annual performance agreements.

The mayor must further ensure that the service delivery targets and quarterly performance indicators, and the monthly projections of revenues and expenses in the service delivery and budget implementation plan, are made public not later than fourteen days after these matters have been approved; and that the performance agreements of the municipal manager and other senior officials are similarly made public not later than fourteen days after their approval.

Section 68 Budget preparation

The municipal manager must assist the mayor in performing the assigned budgetary functions and must provide the mayor with administrative support, operational resources and the information necessary to perform these functions.

Section 69 Budget implementation

The municipal manager is responsible for implementing the budget, and must take reasonable steps to ensure that:

- funds are spent in accordance with the budget;
- expenses are reduced if expected revenues are less than projected; and
- revenues and expenses are properly monitored.

The municipal manager must prepare any adjustments budget when such budget is necessary and submit it to the mayor for consideration and tabling in council.

The municipal manager must submit a draft service delivery and budget implementation plan to the mayor fourteen days after the annual budget has been approved and must also within the same period submit drafts of the annual performance agreements to the Mayor.

Section 70 Impending shortfalls, overspending and overdrafts

The municipal manager must report in writing to the council any impending shortfalls in the annual revenue budget, as well as any impending overspending, together with the steps taken to prevent or rectify these problems.

Section 71 Monthly budget statements

The municipal manager must, not later than ten working days after the end of each calendar month, submit to the mayor and provincial treasury a report in the prescribed format on the state

of the municipality's budget for such calendar month, as well as on the state of the budget cumulatively for the financial year to date.

This report must reflect the following:

- actual revenues per source, compared with budgeted revenues;
- actual expenses per vote, compared with budgeted expenses;
- actual capital expenditure per vote, compared with budgeted expenses;
- actual borrowings, compared with the borrowings envisaged to fund the capital budget;
- the amount of allocations received, compared with the budgeted amount;
- actual expenses against allocations, but excluding expenses in respect of the equitable share;
- explanations of any material variances between the actual revenues and expenses as indicated above and the projected revenues by source and expenses by vote as set out in the service delivery and budget implementation plan;
- the remedial or corrective steps to be taken to ensure that the relevant projections remain within the approved or revised budget; and
- projections of the revenues and expenses for the remainder of the financial year, together with an indication of how and where the original projections have been revised.

The report to the national treasury must be both in electronic format and in a signed written document.

Section 54 Budgetary control and early identification of financial problems

On receipt of the report from the municipal manager, the mayor must:

- consider the report;
- check whether the budget has been implemented in accordance with the service delivery and budget implementation plan;
- issue appropriate instructions to the municipal manager to ensure that the budget is implemented in accordance with this plan, and that the spending of funds and the collection of revenues proceed in accordance with the approved budget;

- identify any financial problems facing the Municipality, as well as any emerging or impending financial problems; and
- submit to the council within thirty days of the end of each quarter a report on the implementation of the budget and the financial state of affairs of the municipality.

If the Municipality faces any serious financial problems, the Mayor must:

- promptly respond to and initiate the remedial or corrective steps proposed by the Municipal Manager, and
- alert the MEC for Local Government and the Council of the municipality to the problems concerned.

The mayor may revise the details of the service delivery and budget implementation plan, but any revisions to the service delivery targets and quarterly performance indicators must be approved by the Council and be supported by an adjustments budget. Any changes made to the projections of revenues and expenses as set out in the plan must promptly be made public.

Section 55 Report to provincial executive if conditions for provincial intervention exist

If the council has not approved its annual budget by the first day of the financial year to which it relates, or if the municipality encounters serious financial problems, the mayor must immediately report this matter to the MEC for Local Government and may recommend a provincial intervention.

Section 72 Mid-year budget and performance assessment

The municipal manager must assess the budgetary performance of the municipality for the first half of the financial year, taking into account all the monthly budget reports for the first six months, the service delivery performance of the municipality as against the service delivery targets and performance indicators which were set in the service delivery and budget implementation plan, and the past financial year's annual report and the progress made in resolving problems identified in such report.

The municipal manager must then submit a report on such assessment to the mayor, the national treasury and the provincial treasury.

The municipal manager may in such report make recommendations for adjusting the annual budget and for revising the projections of revenues and expenses set out in the service delivery and budget implementation plan.

In terms of Section 54(1)(f) the mayor must promptly submit this assessment report to the council of the municipality.

Section 73 Reports on failure to adopt or implement budget-related and other policies

The municipal manager must inform the provincial treasury, in writing, of any failure by the council to adopt or implement any budget-related policy or a supply chain management policy, and of any non-compliance by an office bearer or political structure with such policy.

Section 75 Information to be placed on websites of municipalities

The municipal manager must place on the municipality's official website (inter alia) the following:

- the annual and adjustments budgets and all budget-related documents;
- all budget-related policies;
- the annual report;
- all performance agreements;
- all service delivery agreements;
- all long-term borrowing contracts;
- all quarterly reports submitted to the council on the implementation of the budget and the financial state of affairs of the municipality.

Section 80 Establishment (of municipal budget and treasury office)

Every municipality must have a budget and treasury office comprising a chief financial officer supported by appointed officials and contracted staff.

Section 81 role of chief financial officer

The chief financial officer is administratively in charge of the budget and treasury office and must, inter alia,

- assist the municipal manager in preparing and implementing the budget;

- perform such budgeting, financial reporting and financial management and review duties as are delegated by the municipal manager;
- account to the municipal manager for the performance of all the foregoing responsibilities.

Section 83 Competency levels of professional financial officials

The municipal manager, senior managers, the chief financial officer and the other financial officials in a municipality must all meet prescribed financial management competency levels.

54(3)	(Between 31 January and 31 March)	Mayor must ensure that revisions to service delivery and budget implementation plan are “promptly” made public. (Note that no concomitant revision of performance agreements is evidently envisaged).	Mayor	Presumably the accounting officer must make these revisions for the Mayor’s approval as part of the process of adjusting the annual budget. The deadline for these revisions must be by or as soon as possible after 31 January, but certainly not later than 31 March. See also 54(1) and (2).

Council	Although Council has until 30 June to approve budget, best practice will be to approve budget not later than 31 May.

24(3)	(Immediate after approval date)	Accounting officer must submit approved annual budget to national treasury and provincial treasury.	Accounting officer	No time limit is specified for this action, and neither is the format in which the budget is to be submitted specified. Common sense dictates that the submission should be at least in electronic format and that it should be made as soon as possible after the approval date.
25(1) and (2)	Within 7 days of date of Council meeting which failed to approve annual budget	If Council fails to approve annual budget at meeting scheduled in terms of Section 24, must reconsider budget within 7 days of date of such meeting. 	June to late July)	for each quarter. (Note that though the Mayor approves these targets and KPIs, only the Council may change them and then only following the approval of an adjustments budget. See Section 54(1)(c)).		
53(1)(c)(iii)(aa) & (bb)	Within 28 days after date annual budget approved (late June to late July)	Mayor must take all reasonable steps to ensure that annual performance agreements for Municipal Managers and all senior managers are linked to measurable performance objectives approved with the budget and to the service delivery and budget implementation plan and are concluded in accordance with Section 57(2) of the Municipal Systems Act.	Mayor	No date is specified for the completion of this requirement, but the logical inference is that the date should not be much later than the date on which the service delivery and budget implementation plan must be approved. See Section 53(3)(b).
16(1)	30 June	Annual budget must be approved by Council	Council	-
53(3)(a) and (b)	14 days after approval of service delivery and budget implementation plan (mid July to mid August, depending on date plan approved)	Projections of revenues and expenses for each month and service delivery targets for each quarter (as set out in approved service delivery and budget implementation plan), and performance agreements of Municipal Manager and senior manager must be made public, and copies of performance agreements must be submitted to Council and MEC for local government.	Mayor	Although this is not specified as a requirement, logic dictates that copies of the service delivery and budget implementation plan should also be submitted to Council and the MEC.
